ABOUT BOSTON

Trusted for over 30 years and operating in over 30 countries, Boston Limited is a global provider of co-designed, custom, certified IT systems for next-generation intelligent infrastructure. The company's edge devices, desktops, servers, storage, clusters and reference architectures are available via its industry-leading ecommerce platform as well as its customer-centred engineering-led engagement model. Boston Limited is a part of US-based SourceCode, LLC.

We are an innovative technology company that has evolved and thrived over the course of three decades, each marked by distinct focuses and achievements. We take pride in our journey, which has seen us transition from a component distributor to a system integrator, then a system integrator with value add and, now, in this decade, a leader in data, quantum and AI solutions.

Discover more at www.boston-it.co.za. We are AI™.

MANOJ NAYEE
COFOUNDER AND MANAGING DIRECTOR, BOSTON

Manoj began his career at the start of the PC era as a programmer for IBM and followed soon after with the launch of Boston Limited - now globally renowned for delivering cutting-edge technology in the server, AI and storage arena.

Authorized Partner

WHAT SETS BOSTON APART?

SOLUTION CO-DESIGN & CUSTOMISATION

Complex, multi-vendor and end-to-end solutions built to meet specific customer needs and workloads

EDGE TO EXASCALE

From edge computing to the most demanding exascale environments - solutions for any scale

INDEPENDENT & VENDOR-NEUTRAL GUIDANCE

Our agnostic approach ensures the best-fit solution for every customer, appraising options from industry respected vendors

LABS, TESTING & PROOF-OF-CONCEPT

In-house labs deliver rapid verification, certification, benchmarking and value demonstration - accelerating decision making and reducing risk

ELITE PARTNERSHIPS & INDUSTRY RECOGNITION

Accredited and recognised partnerships with industry leaders like NVIDIA (Elite Partner, SuperPOD) - giving you early access to innovative, ground-breaking products and technologies

AI & HPC CONSULTANCY + TRAINING

Strategic guidance paired with practical training (incl. NVIDIA DLI), helping customers adopt and scale to match their complex computing challenges

GLOBAL REACH, LOCAL SUPPORT

Our international presence ensures responsive support - wherever your operations are

SUSTAINABILITY THROUGH INNOVATION

We integrate energy-efficient, future-facing technology into every solution, supporting greener IT and reducing TCO while simultaneously improving performance and density

FULL-SERVICE SUPPORT: DESIGN, DEPLOYMENT, OPERATION

Professional services that span through design, build, testing, integration, ongoing managed services and support

ABOUT BOSTON IT SOLUTIONS SOUTH AFRICA

In 2018, we embarked on a mission with a clear focus on High-Performance Computing (HPC). Despite our passion and expertise, we faced the challenges of long sales cycles and limited industry demand, prompting us to reassess our strategy.

Recognising the need to tap into the broader strengths of Boston, we devised a new approach. We shifted our focus to the telco space, applying the same meticulous thought process we had honed in the HPC domain. This strategic pivot led to the development of our turnkey cloud solutions, which quickly proved to be a resounding success in the telco industry.

By offering a “single point of contact” service model, we ensured streamlined support and accountability for our clients. This commitment to excellence and reliability paved the way for further innovation. In 2024, we expanded our turnkey solutions by incorporating onboarding products, aligning with our vision of an all-inclusive offering. This enhancement allowed us to provide even stronger support, with the capability to deliver our solutions directly within the country.

As well as our telco achievements, we also offer comprehensive enterprise solutions, addressing the diverse needs of businesses across various sectors. Our focus extends to the burgeoning fields of networking and security, where we have established a dedicated business unit to drive innovation and excellence.

Our specialisation in AI as a service sets us apart in the industry. We understand the transformative potential of AI and enable our customers to harness its power for their benefit. Our process is designed to uncover the underlying factors that drive customer success. This comprehensive approach allows us to craft tailored solutions that not only meet immediate needs but also align with long-term goals. Through our unwavering dedication to understanding and addressing these factors, we provide our customers with the tools they need to achieve sustained success and growth.

At the heart of our journey is a relentless pursuit of innovation, excellence and customer satisfaction. Our story is one of adaptation, strategic pivots and a commitment to delivering value through best-in-class solutions. As we continue to evolve and expand, we remain dedicated to helping our customers navigate the complexities of their industries and achieve their highest potential.

- Global delivery
- Turnkey Solutions and Rack and Roll
- Training and Education

DATACENTRE AND HOSTING SERVICES

Your business relies on a secure, reliable and high-performance infrastructure to thrive in the digital landscape. Boston offers state-of-the-art data centre and hosting solutions designed to meet your specific needs. Our industry expertise delivers robust and scalable data centre solutions, including dedicated servers, virtual private servers (VPS), cloud hosting and colocation services. With enterprise-grade infrastructure, customised solutions, 24/7 support and scalability, we empower your digital infrastructure to reach its full potential. Choose Boston's Datacentre and Hosting Services for exceptional performance and reliability.

WE CAN PROVIDE:

- Hosting
- Leasing
- Managed Services and Cloud
- Datacentre and Rack Design
- Rack and Roll

Exceptional customer support is the foundation of our successful partnerships. Our Support and Onsite Warranty services offer peace of mind, knowing that our dedicated team of experts is ready to assist you whenever you need help.

SUPPORT AND ONSITE WARRANTY

At Boston, exceptional customer support is the foundation of our successful partnerships. Our Support and Onsite Warranty services offer peace of mind, knowing that our dedicated team of experts is ready to assist you whenever you need help. With prompt and reliable assistance available 24/7, our experienced professionals with deep expertise across various technologies are just a phone call away. We provide onsite support to minimise downtime and ensure smooth operations, coupled with warranty coverage for eligible hardware, ensuring swift replacement or repair.

WE CAN PROVIDE:

- Technical Support and Onsite Warranty
- Out of Warranty Repair and Refurbishment

For our full Terms & Conditions, please refer to our Warranty Services document. If you were not provided a copy upon purchase, please ask your Sales Account Manager to provide one to you.

END OF LIFE AND EXTENDED LIFE CARE

As technology rapidly evolves, effectively managing end-of-life products and systems becomes crucial. Boston Limited's End of Life and Extended Life Care services provide comprehensive solutions to navigate this critical phase of your technology lifecycle. Our expert team understands the challenges associated with retiring outdated systems and mitigating risks related to unsupported or vulnerable hardware. With our services, we ensure a seamless transition to newer technology while maximising the value of your existing investments.

WE CAN PROVIDE:

- Decommissioning, Recycling and Disposal
- Out of Warranty Repair and Refurbishment

Please contact us if you are interested in discussing any of our additional service offerings.

OUR PARTNER NETWORK

CUTTING EDGE TECHNOLOGY
